## Road Project Goes To Voters Saturday

### Cut Corners, Favre Warns Supervisors

Supervisors were warned they would have to cut corners to stay within the budget this year, by Board Attorney Sam L. Favre Jr. and President R. G. Hubbard Jr. at a recessed meeting yesterday.

The new budget, which will be released this week sets up about \$84,000 for the general county fund and approximately \$7,000 a month, Hubbard said the amount previously allowed was around \$10,000 but that about two years ago the income of the general fund was reduced one mill by the state legislature.

He added that a bill to restore the one mill had been introduced at the last term of the legislature but had been defeated.

Representative Clarence Lader said he had voted for the bill.

The total amount necessary to be raised to finance the operation of the general county fund, according to the budget, is \$110,250, the balance coming from other sources such as severance taxes, Clerk Claiborne Lader said.

Favre pointed out that the cost of operating circuit court was high and suggested that not so many prospective jurors be called and suggested they try to pay as well as mileage for

sheriff's deputies to serve the notices.

Hubbard said it was not the fault of the supervisors if the judge excused an excessive amount of jurors and that he had limited the number picked in the hope of cutting down costs.

Bay St. Louis Mayor John A. Scafide said a meeting of the planning board was scheduled for 7:30 p.m. August 30 and asked the supervisors to attend, Hubbard and Favre said they would be there. It was pointed out that part of the planning project would include regulations for subdivisions in Bay St. Louis and also within a five-mile radius which includes Waveland, Hubbard said stricter laws were needed citing some subdivisions where roads had been built without culverts or drainage.

In other matters payment of \$65,622.23 out of the hospital building fund was approved to Perrillat-Rickey Construction Co., Inc., leaving a balance of \$5,000 to be paid after Oct. 1, 1960.

Final payment of \$305.02 was made to W. W. Dawson and Gulf Cities Corp. out of the hospital building fund for supervision.

**Addition of 6 Street Lights Slated in City**

Six new street lights will be placed at various points about Bay St. Louis, as authorized by the City Commission Council, according to J. Cyril Glover, City Commissioner of Utilities.

Installation will be handled by Mississippi Power Co., at Sycamore St. between St. Francis and Old Spanish Trail, at St. Francis between Sycamore and Washington Street, at Washington between St. Francis and Old Spanish Trail, on Melody Lane in front of the Bard residence, on Commenge Blvd. in front of the Lemoyne residence, and in the middle of the quadrangle area in the colored housing project.

Commission Council has also contracted with the Louisville and Nashville railroad to install a 42-inch culvert pipe under the L and N right of way in the vicinity of Carre Court. This culvert will carry all the water in the area by a more direct line of flow to the Gulf instead of the long route which it now takes.

### H.H. SHATTUCK Reelected By MREA

H. H. Shattuck of Bay St. Louis, manager of Coast Electric Power Assn., was reelected as Mississippi director to the National Rural Electrification Cooperative Assn. at the annual meeting of the Mississippi REA Saturday at Biloxi.

The NRECA is the national service organization and Shattuck will serve as one of the 44 members on its board for another term, representing the 26 cooperatives in Mississippi which have 250,000 members. There are 1,000 systems across the nation representing five million consumers.

Following his election, Shattuck left Wednesday to attend a meeting of the Mississippi board in Jackson.

Approval of the \$175,000 issue to be voted on Saturday in all polling places in Beat 5, will insure the hardsurfing of more than 15 miles of streets and roads in the beat, plus the hardsurfing and construction of two bridges on Washington Street.

Cost of this project to taxpayers would be about \$1.75 per \$1,000 assessment per year, R. G. Hubbard Jr., Beat 5 supervisor, said.

One of the main assets of the county is the people coming here to retire, said A. G. Dantagman, president of the Hancock County Chamber of Commerce, and more hard surfaced roads would provide room for more new homes to be built thereby benefiting everybody in the county.

Under Hubbard's plan, Nicholson and Waveland Avenues would be hardsurfaced to U. S. 90, and St. Joseph Street hardsurfaced to the old highway.

### Tommy Shaw Named County ASC Chairman

Tommy R. Shaw of Sellers was elected chairman of the County Agricultural Stabilization Committee at a meeting of delegates from each community Tuesday morning in the Agricultural Center, according to Mr. Rogers, office manager.

Karl Goss of Lumberton was chosen vice chairman, and A. Cuevas of DeLoach was named first alternate with Cornelius Favre as second alternate.

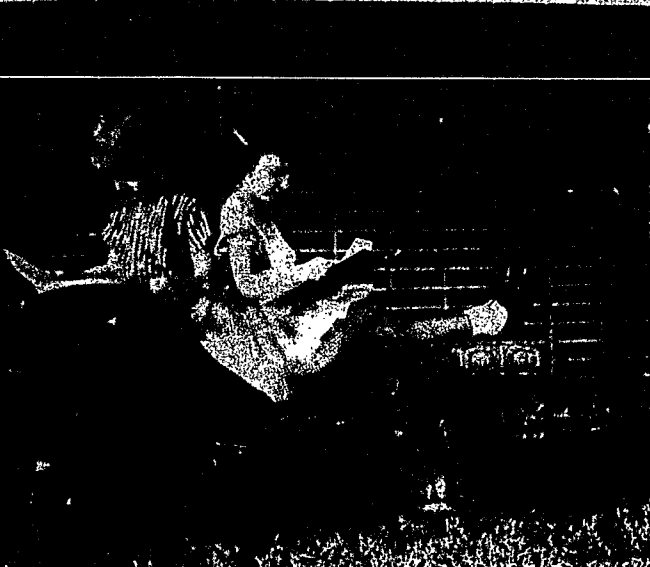

The new county committee takes office Sept. 1 and will serve for one year.

Community committees were elected earlier this month and chairmen from each gathered to pick the county committee. All chairmen attended with the exception of J. Nelson from Anselmy-Napoleon, that district being represented by Thornton Brown.

### Home Rental Business Booms

Want to rent your house? If it's in the Bay-Waveland area it should be easy. The Echo's query of five local real estate agents got a unanimous opinion that there was a more than normal demand for rental property. Several reported that currently they had no rental houses or apartments available but would have after Labor Day, Sept. 5.

While no agent is certain, all ascribe the abnormal demand for housing to the present uncertainty in the New Orleans area about public schools in the 1960-61 academic year.

**BACK TO SCHOOL** — Lealie Fillingame, 6, son of Mr. and Mrs. James Fillingame, and Lynn McCulloch, daughter of Mr. and Mrs. Joe D. McCulloch, first grade students at Ingram Elementary School, prepare for the first day of school tomorrow. Public schools throughout the city and county have registration Friday and classes begin Monday.

### Board, McCarty, Echo Scrap Features Meet

A heated verbal attack on the Hancock County School Board by County School Superintendent Kenneth G. McCarty, executive sessions of the board and conclusion of the board's session, contributed toward the county board of education's recessed session at the start of the year.

During the session open to the public, were reported remarks by the presiding officer, Kenneth G. McCarty, to state the board's opinion of the board's session and the relation of the board to the school system.

The same session had received the board's opinion of the board's session and the relation of the board to the school system.

### McCarty Sued

Kenneth G. McCarty, Hancock County Superintendent of Education, was today sued for \$25,000 by Powell Glass, Jr., editor and proprietor of the Sea Coast Echo.

Glass alleged that McCarty on last Saturday at the meeting of the Hancock County Board of Education maliciously and spitefully said, uttered and damaging words concerning Glass's business.

The vice chairman then asked for a motion to hold the lone Sellers bid until the attorney-general clears up the matter, which was moved by Beat 3.

Trustee Louis Nicaise, seconded by Beat 2 member Alton Keller, Attorney Phillips explained that he had requested the ruling to keep the board immune from any difficulty and Mrs. McDonald stated the papers had been designated with an eye toward using those with the most general circulation in the area.

Mrs. McDonald thereupon asked that the Leetown School sale legal be cancelled as it did not appear as directed, McCarty challenged that the Times-Picayune was directed in the earlier

### Real Estate Values Keep Moving Up

Bay St. Louis' real estate assessment continues on the upgrade with a gain of some \$36,000 recorded in the last year.

The final tabulation of the assessment made public this week by City Commissioner of Finance Warren Traub puts the figure at \$3,533,250 compared with \$3,497,215 for 1959.

Figures on personal property public utility assessments are not yet available but Traub believes they will be comparable with last year's totals of \$243,088 for personal matters and \$537,065 for utilities.

### File Deadline Oct. 7 For School Board Post

Voters of the Lakeshore and Clermont Harbor areas served by the Hancock County school district were reminded Saturday that they have until Oct. 9 to propose candidates for the Beat 5 seat on the county school board which becomes vacant at the end of this year.

Their attention to this election was called by Mrs. C. C. McDonald, present Beat 5 trustee, when a delegation from Gulfview School at Lakeshore appeared to seek relief for overcrowded conditions at the school.

Voters of the Lakeshore and Clermont Harbor areas served by the Hancock County school district were reminded Saturday that they have until Oct. 9 to propose candidates for the Beat 5 seat on the county school board which becomes vacant at the end of this year.

Their attention to this election was called by Mrs. C. C. McDonald, present Beat 5 trustee, when a delegation from Gulfview School at Lakeshore appeared to seek relief for overcrowded conditions at the school.

Candidates must be filed with 50 endorsements by Oct. 9 in order for balloting to take place at the same time as the presidential election in November. Under a new state law, Mrs. McDonald is not eligible for reelection because she resides within the area served by the separate municipal school district of Bay St. Louis and not the county.

Principal Paul Lanphere suggested that the school lunchroom might be converted into classrooms and a new lunchroom provided to ease some of the congestion.

Attorney Walter James Phillips explained previous efforts

## Vote Yes!

On Saturday the voters of Beat 5 will make one of their major decisions of this or any other year. They will vote on a \$175,000 bond issue for roads. Supervisor President R. G. Hubbard, Beat 5 member of the board, has advocated the approval of this issue in order to surface some 35 miles of road in the Bay St. Louis to Lake Shore area of Beat 5.

The Echo thinks that for several reasons the voters of Beat 5 should vote "yes". In the Bay-Waveland area we have a growing population. We have a progressing community. If we want it to keep on progressing, which dollar-wise and otherwise will be good for all of us, we have to give it the tools - usually money.

As we see it, Mr. Hubbard's proposal will be of economic benefit to everyone in Beat 5. The Echo believes that his only mistake in judgment is in scheduling what is minimum surfacing instead of the more costly first-class treatment. On the other hand the Echo is aware that money is money, but remembers that in the supervisors' elections last year one of the major complaints voiced against Mr. Hubbard, the incumbent, was the roads in Beat 5. You can't build roads without money. If his opponents of 1959 are sincere, they should certainly vote with Mr. Hubbard this time, if only to prove their point.

The only people who can honestly and conscientiously be against the bond issue, and in their case short-sightedly, are the repair garage personnel. The increase to the number of our people will nullify their temporary loss.

## Why?

Last summer during our local political fights this paper supported Mr. E. E. Breland, the incumbent superintendent of education, for reelection. In the second primary, after Mr. Breland was eliminated by two votes, the editor, when asked, suggested that Mr. Kenneth McCarty seemed the better choice since Mr. Robert Ladner, his opponent, had recently had a disagreement with the school board that resulted in his discharge as principal of Gulfview School.

Since that time Mr. McCarty's name, except in accurate straight news stories, political advertisements of his and one free political publicity feature, did not appear in the Echo until March 17, 1960, at which time this editor in one paragraph without headline "needed" Mr. McCarty for belittling the overall state basketball championship won the preceding week by Hancock North Central, the first Gulf Coast School to win this honor. In the same issue the editor commented on the "friction" between newcomer (to the current educational system) Mr. McCarty and then Hancock North Central head, Mr. R. E. Webb.

Mr. McCarty's name has appeared editorially one more time since then, on March 24, when this paper pointed out that he had criticized the senior employee of the county school system for not doing what he was doing. The instance occurred on Jan. 16, 1960.

For reasons best known to himself Mr. McCarty uses his position, sometimes illegally, to financially assist this paper's competitor. Before Mr. McCarty took office legal advertisements of the Hancock County Board of Education were split approximately equally between the Sea Coast Echo and the Hancock County Eagle. Since Mr. McCarty took office the Sea Coast Echo has received far more advertisements from the county board of education, notwithstanding that it has the greater paid circulation and in a limited sense (there really isn't one) is the county's only official newspaper. (It has a contract to print the minutes of the board of supervisors.)

On at least two occasions the board of education has instructed Mr. McCarty, its clerk, to place a legal advertisement in the Echo. Each time Mr. McCarty has chosen to disregard his instructions, on one occasion costing either himself or the taxpayers more than \$187.

During the same period Mr. McCarty has repeatedly disparaged this paper, the only one that in any sense reports the events that occur at the meetings of the county board of education. Mr. McCarty's reason for such actions is his business, the defamation involved in this paper's business.

The Echo categorically accuses Mr. Kenneth G. McCarty, Superintendent of Education, Hancock County, Mississippi, of lying.

## Vote Eye

One of the most mysterious of all is a shooting in town where he first established the reputation of the "Nerve" Fall. One of his murder mysteries was the case of a young woman who was killed on the way to a wedding in Oklahoma. She had been dead a long time. The case was solved by a young man who was a friend of the victim. The case was solved by a young man who was a friend of the victim. The case was solved by a young man who was a friend of the victim.

## State Health Leader Stresses Pupil Needs

"Health readiness is the most important thing a parent can provide for the school child," said Dr. A. L. Gray, executive officer of the State Board of Health, in speaking of the necessary preparations for school.

As over 500,000 Mississippi school-age children enjoy the remaining vacation days before the fall term begins, the state health officer urges parents to make use of this period for health appraisals, and any needed corrections and immunizations.

"To permit a child of any school level - elementary or secondary - to begin a new term without a medical and dental examination is like starting on a long motor trip without a check-up," he stated.

Yet the school health records show, Dr. Gray said, that the average parent is prone to put off medical and dental check-ups until symptoms of difficulties develop.

Such delays, explained the health officer, are costly both in terms of health and school adjustment, as well as in medical expenses.

Since the eyes and ears present the most prevalent medical problems among the school population, the health appraisal should

include hearing and vision tests. Such tests should be made at least once a year on every school age child, according to Dr. Gray.

In speaking of the importance of the regular yearly medical examination, Dr. Gray pointed out that it may uncover a condition that needs treatment and corrective procedures or one that needs further medical examination.

The medical examination may also point up the need for a modified school program for the child. Taken as a whole, the findings

of a medical examination provide the information on the child's growth and health status that both the teacher and parent need to know in understanding him and in helping him to make maximum school progress.

To insure protection against the more serious preventable diseases during the school term, Dr. Gray urges that all school children have immunizations completed for polio, diphtheria, tetanus and smallpox, regardless of the requirements of the local school district.

Yours very truly,  
LESTER CLARK  
Hainesbury

case. "Do you understand you have no right to run advertisements without authorization of the board?" Mrs. McDonald inquired.

"I'm not going to be a flunky boy for anybody," McCarty retorted. "I think I deserve a little courtesy when I was elected superintendent by the people of this county." Keller observed that the board members likewise were elected by their own constituents and responsible to their constituents.

"You are not going to tell me to put it (presumably legal advertisements) in any paper," McCarty answered. Pointing his finger and addressing the Echo reporter present, he said, "I'm not going to put it in this here gossip column, this distortion column, I'm not going to take it over there. . . she's over here every time and she can come and get them if she wants them (she presumably being the Echo reporter.) "You're not going to catch me in any errors," McCarty continued, referring again to Phillips' expense bill.

Mrs. McDonald turned again to the state statutes on the superintendent's duties, citing the board as the policy making body.

"That paper (The Echo) has been lambasting me ever since Jan. 4," McCarty interjected, "and last year they called me a demagogue."

(EDITOR'S NOTE - The Sea Coast Echo has never called Kenneth G. McCarty a demagogue.)

The presiding officer called for a motion to authorize advertising legally of both schools up for sale and Powell so moved, adding he was tired of advertising. Necaise suggested holding up until the attorney general's view is received and Powell withdrew his motion.

When a delegation from Gulfview School asked to be heard on overcrowded conditions there, McCarty told them he'd heard reports that he was holding the money and wouldn't let it be spent to improve the plant. He said he wanted the board to straighten things out, adding, "I'm going to get this demagoguery straightened out if it costs me a lawsuit." He told the Gulfview group, he personally would like to see a brand new brick building there.

Rimer Seals from the Catahoula community requested the board to resurvey its proposed bus route in that area, submitting an alternative which he said would save time and money. On Powell's motion it was approved. The route will run through Meran Road to Cuscutown Road and thence to North Central School. Harold Lee was hired to drive the requested bus. Necaise subsequently inquired about bus route revisions in the Necaise Crossing area.

Mrs. McDonald reported on a

### Three Injured In Crash At Intersection

Three were hospitalized yesterday as a result of a two-car collision at the intersection of Hancock and Beekman Streets about 6:15 p.m.

The vehicles involved were a '59 Chevrolet sedan, driven by Mrs. A. L. Giamelloni, and a convertible model Volkswagen driven by Eileen Plunkett, daughter of Mr. and Mrs. Joseph Plunkett.

Daniell, Gil and Addie Giamelloni were passengers in the Giamelloni car, Miss Plunkett was alone.

Patrolman Jack Ladner, who investigated, said Mrs. Giamelloni was traveling north on Hancock and Miss Plunkett was going east on Beekman. No charges had been filed at press time.

Daniell Giamelloni suffered a broken leg, Addie Giamelloni, a broken nose, and Miss Plunkett, lacerations of the head and face, and a gashed knee. All have been discharged from Hancock General Hospital except Miss Plunkett who is reported in good condition.

proposal to provide 23 fire extinguishers for the schools for \$18 a month and the board and superintendent pondered the wisdom of this expenditure when the property is covered by insurance.

On Powell's motion, the contract for janitorial supplies was awarded to General Research Laboratories of New Orleans. Bids had been opened at the previous meeting and held for study.

Phillips reported on the status of requested repairs to the walk-in cooler at North Central and a leak in the tar roofing and McCarty submitted a \$31 expense account for a trip to the superintendent's conference in Biloxi, observing that other persons were reimbursed. He was directed to turn it in with other bills.

The question of board approval of teacher hiring was raised by Mrs. McDonald, apparently in reference to the superintendent's announcement last week of the new coach for North Central. McCarty contended he and Principal Leo Rouse had the authority to hire and inquired of Powell if that were not the case. Powell conceded they did but board approval was necessary.

McCarty observed that he and

Rouse as professional educators were competent to approve teachers and maintain the board was "strangling things" in insisting on approval. Mrs. McDonald replied that all teachers' names must be on the minutes before they could be paid. She added that the law had been changed since McCarty had last served as county superintendent.

After appointment was approved of Mrs. Margaret Zimmerman Varnell to the Gulfview faculty and Billy Dale Sills at North Central, Keller called for an executive session with the superintendent. It began at 12:25 p.m. and concluded at 12:45 p.m., the presiding officer reporting it was to clear up legal points and functions of the board. The next meeting was set for 2 p.m. Sept. 6.

## ELECTRIC POWER ASSOCIATIONS ARE DEMOCRACY IN ACTION

Less than 1% of Mississippi farms had electricity 25 years ago.

Community Leaders worked together to form electric power associations.

Each association is controlled by a board of directors.

Each association is a Mississippi Corporation.

Government loans are being repaid with interest.

Today 232,000 Mississippi farms, rural homes and industries have electricity.

Rep. Clarence L. Jones, who was in the Senate, died at his home in the plant here.

The delegation also reported on the school's growing attendance from its building program and Mrs. McDonald indicated also planned to bring the up again at the next meeting with an eye to appointing a more active group if the present one is not functioning.

Walker Cox III has arrived from the University of Mississippi to spend a sabbatical year vacation from studies with his mother. Their guest over the weekend was Miss Kay LeVocchie of Vicksburg.

# for Sheriffs Pull Upset

# Little League's Finale Is Sunday

An improved Junior Sheriff nine pulled the biggest upset of the season yesterday slapping down league-leading Coast Electric 14-2 behind the fast-ball pitching of Billie Cooper who salted away his own game in the first inning with a triple scoring two deputies. The Sheriffs took two in a row to win the 9-12 year old playoffs of the Little League.

A base-loaded homer by Danny Krankey in the top of the fourth put the game on ice. Cooper also got a double and a single; Stanley Weidman a triple with one aboard and Eddie Osborn doubled to score one. Starting defensively were Larry Jacob at shortstop and Sylvan Ladner at the hot corner.

For Coast Electric Monti Rhodes got a triple and a double, Bennie Genin a double and John Shattuck beat out a single. Coast Electric was somewhat handicapped by the loss of their ace pitcher, Lee Elwell, who went back to school in Alabama. Coast Electric dropped the

A full day of baseball will wind up the season for Little Leaguers Sunday at City Ball Park.

At 10 a.m., 7-Up is scheduled to meet Coast Electric; 11:30 a.m., Youth Center vs. Al Summy; 1 p.m., Junior Sheriffs vs. Ken's Little Diggers; 2:30 p.m., Sea Coast Echo vs. Pahey Drugs; 4 p.m., losers of the first game to the Junior Sheriffs 12-8 Saturday with Cooper again on the mound and banging out four hits out of four trips to win his own game.

Losing pitcher Monti Rhodes made a strong bid to win his own game slugging out a solid triple with three on. For the winners Jim Lelacano and Cooper each got a homer with two aboard. Sylvan Ladner and Danny Krankey each got three for four. For Coast Electric, J. Warner knocked in two runs with a single. Coach for the Sheriffs is Manuel Maurigi and for Coast Electric, Burt Taylor.

## Trapani Takes Title Second in Row

Trapani's are the undisputed soft-  
ball champions for the second  
year.  
When they took the third  
game from runner-up  
Coast Electric 11-4, displaying  
an impassable defense  
at bat. Friday they  
won in the last half of  
the game to win 7-6.  
The series will be awarded to-  
morrow between the  
Trapani and Regal. In their  
first game, Regal has two wins  
and should Regal win  
the series, the standings  
would be played fol-  
lowing first.  
The first inning was all the  
Trapani needed. First  
strong, singled as did  
Mortelle knocked them  
out. Double pitcher Ladner  
made an error, Fayard  
hit out, Reinke was safe  
Ladner's choice, Tartou-  
routed to the shortstop,  
Monti was safe  
but got caught at  
first when he tried to score  
Ladner's single to end the  
game with five runs on six  
hits.

by Reinke. Trapani got 15 hits,  
Coast Electric 10.

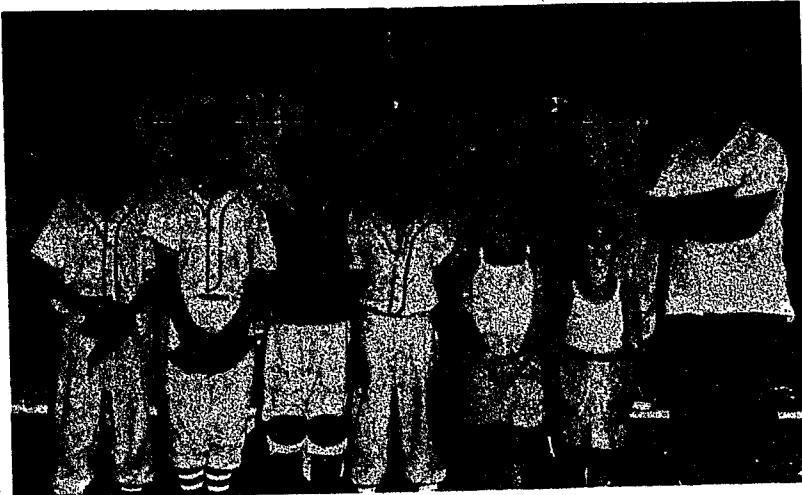

In Friday's game Trapani was  
leading 5-0 when Coast Electric  
scored five in the top of the fourth  
when Cameron singled, Haas  
homered, J. T. Ladner was safe  
on an error and Favre, L. Lad-  
ner and C. Ladner singled. Each  
team scored again in the fifth  
but Trapani came through with  
the clincher on the bottom of the  
last inning with two away.

Youth Center was too strong  
at the plate for Regal last night  
scoring in every inning to take  
the opener 16-6. YC's Tedford  
came through with a homer, a  
single, was safe on an error and  
was out on a fielder's choice.  
Peterson got three out of four,  
Taylor and Godwin two for three  
while Saucier got two singles and  
a double out of three trips.

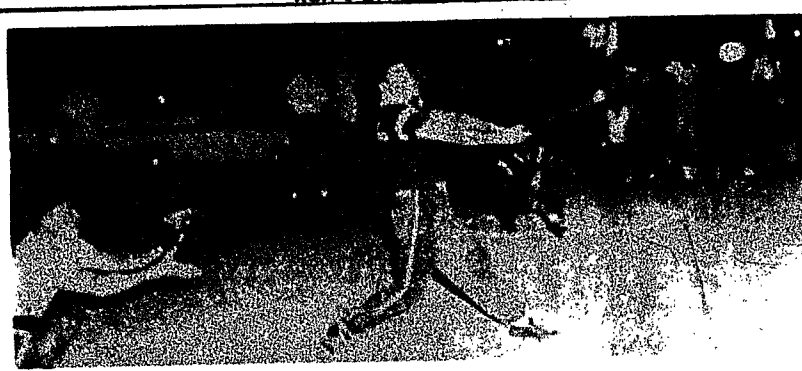

Friday Youth Center over-  
powered Regal to take the second  
game of the series 16-5 scoring  
six runs in the second on four  
hits, two walks and an error.  
Regal went hitless until the fifth,  
scoring four on singles by Shippy,  
John and James Gilm and a double  
by leftfielder Blatze.

## Mosquitoes Bite Pair Stranded Out of Logtown

A New Orleans pair left Cam-  
 den's Fishing Camp above Log-  
 town Monday morning, not sus-  
 pecting that before the day was  
 over they would be stranded in  
 the Pearl River swamp, battling  
 hordes of mosquitoes.

The men were Leo J. Varan  
 and his brother-in-law, William C.  
 McLean. Varan, on leave from  
 Texas where they are stationed  
 with the Army.

At 10 o'clock, about a mile  
 from the camp, the men were  
 stranded. Unable to find a way  
 out, they waited until the sun  
 came up. When they didn't  
 show up at their camp, Logtown  
 Mayor, a Coast Guard helicopter  
 was sent out with young Pete  
 Walker of Pearlport aboard to  
 search the swampy area.

The pair was spotted, and a  
 boat, carrying Frank Carver and  
 J. B. Beckard, both of Pearlport,  
 was sent out to pick them up.

Neither of the men sustained  
 injuries besides several mos-  
 quito bites and a healthy case  
 of hunger pangs.

## Wool Payments Being Made

A total of \$1,044.69 has been paid so far to Hancock County wool growers in the form of payments earned in the national wool program for the 1959 marketing year, according to Pat M. Rogers of the county Agricultural Substitution and Conservation Committee.

The payments now being made were earned on marketings of wool and washers lamb during the year from April 1, 1959, through March 31, 1960.

On about one-half of the payments, amounts to one cent a pound for shorn wool and five cents a hundredweight for washers lamb.

The wool program, authorized by the National Wool Act, is designed to increase the annual wool output of the United States to 300,000,000 by incentive payments which bring the average price received by growers from wool to 62 cents per pound.

Payments are now being made on applications received up to May 1, 1960. The 1960 marketing year will continue until March 31, 1961, and payments for marketings during that period will be made next summer.

Farm housing loans are made by the Farmers Home Administration and are used to construct and repair needed farm homes and farm service buildings. During the past 10 years, 32 loans totaling \$220,000, have been advanced for this purpose in Hancock County.

Other eligibility requirements for these loans remain unchanged. They are that the applicant lacks the resources needed to obtain credit elsewhere, be a citizen of the United States, and have sufficient income from farm and other sources to pay farm operating and family living expenses and meet payments, when due, on his debts.

Applications for this type of credit may be made at the County Office of the FHA in the Agricultural Center Building, Bay St. Louis.

## NOT THIS!

## VOTE FOR THE BOND ISSUE SATURDAY AND YOU VOTE FOR PROGRESS:

HANCOCK COUNTY'S LARGEST ASSET TODAY IS ITS PEOPLE LIVING IN THE COUNTY AND PURCHASING THEIR NEEDS IN THE COMMUNITY. MORE PEOPLE ARE MOVING INTO THE COMMUNITY? THE LANYER HANDLES THE LEGAL TRANSACTION. THE CIVIL ENGINEER SURVEYS THE LOT; THE INSURANCE COMPANIES INSURE THE PROPERTY AND CONTENTS; THE BANKER GETS A NEW ACCOUNT. PAINTERS, PLUMBERS, CARPENTERS AND OTHER TRADESMEN GET EMPLOYMENT. SUPPLIERS OF BUILDING MATERIALS GET THEIR PORTION OF THE NEW BUSINESS. APPLIANCE STORES SELL NEW EQUIPMENT AND MAINTAIN USED EQUIPMENT. IN ADDITION, THESE PEOPLE MUST EAT, SO THE GROCER, BAKER, BUTCHER AND OTHER FOOD HANDLING ESTABLISHMENTS GET THEIR SHARE. DRUGS AND CLOTHING ARE ALSO NECESSARY. SO EACH AND EVERY MERCHANT CAN FIGURE ON ADDITIONAL PROFIT WHEN A NEW FAMILY MOVES INTO THE COMMUNITY.

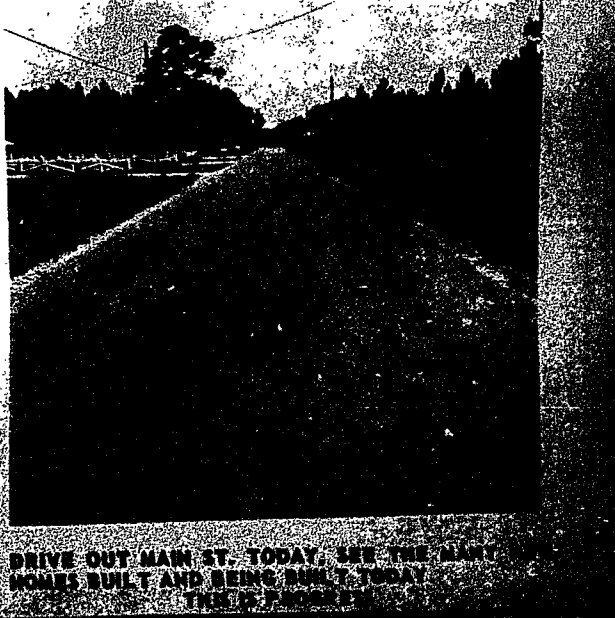

IN 1959, 282 BUILDING PERMITS WERE ISSUED IN BAY ST. LOUIS AND WAVELAND COMPARED TO 128 ISSUED IN 1958. AS BUILDING PERMITS ARE UNNECESSARY IN OTHER AREAS OF BEAT FIVE, THIS DOES NOT INDICATE THE TOTAL OF NEW CONSTRUCTION.

THE TOTAL AMOUNT OF THE BOND ISSUE IS \$175,000, WHICH IS NECESSARY TO IMPROVE AND BLACKTOP MAIN ARTERY STREETS IN BEAT FIVE, AND WILL ENCOURAGE THE CONSTRUCTION OF NEW HOMES ON THE PROPERTY ADJACENT TO THE STREETS TO BE IMPROVED.

THE MAXIMUM INCREASE IN YOUR TAXES WILL BE \$1.75 PER ONE THOUSAND DOLLARS OF THE ASSESSED VALUE OF YOUR PROPERTY. CHECK YOUR CURRENT TAX RECEIPT TO SEE HOW LITTLE THE INCREASE WILL BE AND COMPARE IT TO THE ULTIMATE BOND WHICH WILL ACCRUE TO YOUR COUNTY.

THIS BOND ISSUE IS APPROVED AND RECOMMENDED BY THE MAJORITY OF THE BOARD OF DIRECTORS OF THE HANCOCK COUNTY CHAMBER OF COMMERCE

*Perpetual Care Memorial Park*

At the time of the dedication and opening of the Garden of Memories Cemetery in June of 1956 the price was \$250.00 for a four grave lot. At that time we advertised that each year the price would be advanced until the price would be six hundred dollars.

The Pre-Need Price today is \$400.00. The As-Need Price is \$500.00. This is fair and reasonable because those who buy Pre-Need Make the Park possible. Those who buy As-Need are using something provided by the foresight and public spiritedness of others.

That the six hundred dollar price is not unreasonable is evidence by other Parks from New Orleans to Tampa where the lot price is much higher. At that time the price per grave price will be \$150.00. Three per cent (3%) interest on this amount is \$4.50.

Can you buy a grave advanced and more, great care, flowers planted and have an attention on the property every week for \$4.50 per year? That fact is what you accept with a Perpetual Care lot in the Garden of Memories Cemetery.

**AND NOW YOU CAN BUY PROPERTY AT PRE-DEVELOPMENT PRICES**  
For a limited time only you may acquire property in Section C for \$250.00 (and your Credit Certificate may be used as down payment) with the understanding that you may have full credit for down payment paid as property in Sections A and B (present developed sections) if you wish. In the event of death, use the property in Section C while the proceeds from the sale of the section will be advanced within the next three years. Just as Sections A and B are and to the future the property you purchase will be kept advanced in the event of the death of the owner to be advanced.

This offer is for a limited time only. If you are interested call Mrs. Edith McLaughlin at HO 7-4218 and arrange an appointment at the Park where you may see the property and have this offer fully explained to you.

**AND IT COMES OUT HERE**—Wilson Morris, Lake Charles, La., and Dave Brown, Minneapolis, Minn., two students participating in the Research Apprenticeship program of the Midwestern Science Camp, discuss the workings of KU's Van de Graaff generator in Malet Hall. Morris has been using the generator in a study of the general characteristics and nature of subatomic particles with nuclei as a part of his special summer project.

## Science Camp Occupies Morris

A scientist among us, and the young man's name? Wilson Morris of Lake Charles, La. Wilson, who has been a student at St. Stanislaus College since 1952, was one of 24 graduates of the 1959 University of Kansas science and mathematics camp. The program was scheduled for three weeks, but most of the participants, including Morris, became so engrossed in their subjects that they stayed on campus through the six-week period designated for other studies.

For the most part, the students worked on original projects. Morris's particular interest was the study of the general characteristics and nature of subatomic particles with nuclei.

He is the grandson of Mr. and Mrs. Jack Lott of Kila.
